("Wood's" Red Seal Print, Los Angeles.) [1906?] [Text begins with title, "Prospectus of the Arizona Sanatorium and Touring Company, Inc."] [Under "Attractions": "*Grand Canyon* of the *Colorado*. Our parties will view the *canyon* at a point never before visited by tourists, the canyon being grander by far than at the point from which it is usually seen, the railroad touching there because it was more convenient than at a point higher up where it is to be seen to greater advantage."

(ENTIRE NOTE)] [*NOTE*: Munk (1908, ITEM NO. 1.96), p. 97, cites "Worthington, T. J. Arizona Sanatorium and Touring Company. Los Angeles, 1906." The *Holbrook Argus* (Arizona) for November 10, 1906, p. 8, and for December 1, 1906, p. 8, prints "Articles of Incorporation of the Arizona Sanatorium And Touring Company". If the prospectus cited here is in fact from *ca.* 1906, it is peculiar that the Grand Canyon tour description seems to refer to the eastern Grand Canyon as the destination, in favor of where the railroad had "touched" it, which is the Peach Springs area and even though a railroad branch had in fact finally reached Grand Canyon Village in 1901.]

Aubry, F. X. [Aubry, François Xavier]

1853 2.30859 Notes. *Santa Fe Weekly Gazette* (Santa Fe, New Mexico), 3(15) (September 24): [1]-[2]. [A transcription of Aubry's journal of his just-completed (September 10) two-month private expedition to ascertain very generally the conditions along the proposed railway route along the 35th parallel, from Tejon Pass, California, to Albuquerque, New Mexico. Though his precise route is not known, Aubry did not stray greatly from the parallel. Provides comments on crossing the "Great Colorado of the west [*sic*] . . . at a point where there are neither cañons nor mountains; although the country appears very rough and mountainous both to the north and south of us. To the north the rocks are black and irregular, and seem to be volcanic; whilst the cliffs to the south are of red sandstone. The banks of the crossing are low, rocky and unchanging, and the current exceedingly rapid. [¶]We followed the river up for five miles, and selected a crossing where it is some 200 yards wide and 20 or 25 feet deep. [. . .] [¶]The place of our crossing is well suited to bridging, or ferriage by steam or otherwise." (p. [1]). Aubry is very favorable toward establishing the route for a Pacific railway.] [This is the first printing of Aubry's journal, which was subsequently printed in the *San Francisco Daily Herald* (December 5 and 6, 1853) and in the *Western Journal and Civilian* (St. Louis, vol. 2 (1854), pp. 84-96). It is more frequently cited from the version read into the record of the *Congressional Globe* by U.S. Senator William McKendree Gwin, December 12, 1853; and that from what appears to be a separate (Wagner-Camp 223): "*Speeches of Mr. Gwin, of California, on the national railroad bill—homestead bill—civil fund bill—California Indian war debt—appointment of judge for the Northern District of California—and the bill to create a line of steamships from California, via the Sandwich Island, to China. Delivered in the Senate of the United States, Dec. 12, 1853.* (Washington: Printed at the Congressional Globe Office, 1853), 13 pp.]

2022 2.31156 We'll let you in on a little secret. At only 40 acres, Pipe Spring National Monument is the smallest National Park Service site in Arizona. It's also among the least visited. Turns out, size matters. "At larger parks, you get a brochure and you're sent on your way," says Ian Harvey, an interpretive ranger there. At Pipe Spring, things are more personal. It's like touring Mayberry with Andy Taylor. *Arizona Highways*, 98(8) (August): 50-51.

2023 2.31370 Maswik Lodge South. The original Maswik South was built in the 1970s. Five decades later, its successor offers state-of-the-art accommodations with the charm and aesthetics you expect from national park architecture. *In:* The Journal [SECTION]. *Arizona Highways*, 99(5) (May): 16.

2023 2.31417 Jacob Lake Inn. Located on the starting line of the North Rim Parkway, the Jacob Lake Inn is one of the most beloved rest stops in Arizona. This year, the inn turns 100. *In:* The Journal [SECTION]. *Arizona Highways*, 99(6) (June): 8.

2021 2.29919 At the end of their ropes. Children's toys, cameras, cellphones, sunglasses . . . even trash cans and traffic cones are dropped or tossed into the Grand Canyon. There's a lot of rubbish below the rim, but there would be a lot more if it weren't for the Arizona Mountaineering Club, which conducts an annual cleanup. Unfortunately, no matter how much stuff these dedicated volunteers take out, they'll never get to all of it. *Arizona Highways*, 97(1) (January): 42-45. [Ellipsis is part of title.] [See also letter from Marylee Peterson, 97(3) (March): 4.]

2024 *2.31659* The end of the road? The long road to Temple Bar dead-ends at the shoreline of Lake Mead. Or what used to be the shoreline. For three-quarters of a century, the lakeside destination has served boaters, campers, anglers and anyone else in search of sun, solitude and starry nights. The future of this historic site, however, is in limbo—declining water levels and their ripple effect may prompt the National Park Service to walk away. *Arizona Highways*, 100(2) (February): 46-51. [See also letter from Malcolm MacEwen, 100(4) (April): 4.]

Austin, Noah; Montgomery, Kathy; Stieve, Robert; AND Vaughn, Kelly

2018 2.26376 Open to the public. For nearly a century, *Arizona Highways* has been showcasing the scenic beauty of the forty-eighth state. Thee's a lot of ground to cover, and more than a third of it is located on public lands—this land is your land. It's too much to present comprehensively, so we've narrowed the list of great outdoor places to 52 . . . one for each weekend of the year. *Arizona Highways*, 94(1) (January): 16-41. [Ellipsis thus.]

1922 2.23876 Going to San Diego. *In:* What the Mailman Brought [LETTERS SECTION]. *Outers' Recreation* (Outers'-Book Co., Chicago), 66(6) (June): 500. [Quoting a reply sent to "R. J. H." regarding an inquiry about the "best route" to take from Canton, Ohio, to San Diego, California. "There are three roads leading from the Santa Fe Trail in northern Arizona to the Grand Canyon—one from Flagstaff, one from Williams, and the third leaving the highway at Maine Station, sixteen miles west of Flagstaff. This latter road is considered the best connecting road at present between the main route and the Canyon." Also notes the general state of road conditions from there to the Colorado River at Topock.]

[See p. 19: "I do not know that we have mentioned the international appeal of our National Parks. If you go to almost any U.S. National Park, you will see people who have traveled the world to get here. I had the privilege of kayaking the Grand Canyon about 15 years ago. [¶] There was a couple from East Germany, actually, who had a picture of the Grand Canyon above their breakfast table and had looked at it every single day for 35 years and had set money aside. It was their dream to visit the Grand Canyon: 35 years, from a country pretty far away from us, to come visit a U.S. National Park, and that is the treasure. We have this opportunity." 1996 2.1332 [Regarding the theft of "Tikki's" journal.] *In:* In the mail [FEATURE]. *Boatman's Quarterly Review*, 9(3): 4. [Tiki's journal, cached at Mile 114.0 Right. "I'm wondering if others have been saddened by the loss of Tikki's (*sic*) joumal at upper 114 mile camp. I was so saddened when I camped there last trip and went up to find the rusted coffee can that always held a chance to get closer to life through Tikki's death. The can and the journal were gone. I can only hope it was her mother who moved them or took them. To anyone else who felt the joumal was theirs to take, it was an awful thing to do, both to Tikki and to those who have read and will read it. The joumal belongs to the Canyon—please return it." (ENTIRE ITEM)] [About Tiki (Charlotte West Galt, 1951-1971), see Reid (1995, ITEM NO. 2.31470).]

2010 2.15014 Spirit unbroken. *Boatman's Quarterly Review*, 23(4) (Winter 2010-2011): 15-17. [Regarding Bartlett's introduction in 1984 to the cache at Mile 114.0 Right that contained "The Journal of Tiki Galt . . . a collection of poems and reflections that struck me to the core." Includes remarks concerning Tiki and her journal that had been stolen (see Bartlett, 1996, ITEM NO. 2.1332) along with "more than a hundred personal notes nested in the bottom of the can addressing the journal's author". "Her name was Charlotte 'Tiki' West Galt who lived from 1951–1971 but never saw the

Grand Canyon. She died from Hodgkins Disease at twenty years old. It was her closest aunt, Charlotte Reid (1922–1997), who traveled through the Canyon in 1972 or 1973 with Western River Expeditions with Jack Curry and Jake Luck as her guides. Charlotte had compiled Tiki's words into a small hand-bound book and wanted to leave this journal in memory of Tiki somewhere in this Canyon that had moved her so much." "[In 1998] when I returned to the Canyon and the Inner Gorge, I had a new journal in a water-tight Tupperware ready to be placed in the same cave where so many years ago Peter Weiss had sent me to find the coffee can. To create a spirit similar to the original, I left a letter explaining why the new copy of the original journal was there, and the power of the accompanying notes that were now lost. I hoped this replacement would at least hold some of Tiki's legacy in the place her aunt had intended." Concludes with comments concerning the possible rediscovery of the original journal in a more remote location nearby, though Bartlett was unable to locate it.] [About Tiki, see Reid (1995, ITEM NO. 2.31470).] [*NOTE*: Earle Spamer and Richard Quartaroli visited the site on August 23, 1997, when Spamer photographed the few pages of the replacement journal (note the discrepancy with the date mentioned by Bartlett regarding when the replacement had been placed there). In July 2023, Spamer digitally corrected the overexposed transparencies, and a digital file copy was given to the Grand Canyon National Park Museum Collection. (Bartlett also mentions that the replacement was in a piece of Tupperware; but Spamer and Quartaroli found it rolled up in a plastic water bottle, also photographed. The "letter" is actually a handwritten note on one of the computer-printed leaves).]

[With unsigned introduction that notes: "A rather unusual Grand Canyon promotional curio was recently discovered among Victorian memorabilia in an old Prescott home, and has been contributed to the Arizona Historical Society by Lester W. Ruffner. Entitled '*The* Grand Canyon *of* Arizona,' the item is a rolled drawing in full color of various views of the Grand Canyon in 1908.

[¶] Jules Baumann, an artist who was active in mining interests in the Prescott area, made his wax crayon drawings of the Canyon, had them reproduced by the Williamson-Haffner Engraving Company of Denver, and published them with accompanying text as a sales item along the Santa Fe Pacific Railroad at Flagstaff and for tourists at the Canyon. Complete with mailing tube, the drawings sold for fifty cents in 1909. Several pictures of the drawings, together with the text, which is typical of the articles then written about the Canyon, are reproduced here." Reproductions not in color.]

[Variant. Regarding this, Wagner and Camp (1982, p. 555) cite, "Beale's five-page preliminary report, without the map, is included in the 35th Congress, 1st Session, Senate Document 43, Serial 922"; this is cited with Storm 215 with the inclusion, Senate Executive Document 43. Storm (1968, p. 35) also cites 35th Congress, 1st Session, House Executive Document 124, Serial 959. Storm indicates, "The first title is the preliminary report of the reconnaissance and the second title is the final report, but the latter lacks the map. See Number 216 for a copy with map."]

It was on that trip that he had his first glimpse of the Grand Canyon of the Colorado; it was to him an overwhelming spiritual experience. He had seen many splendors in both old countries and new, but I think none enriched his treasury as did this unearthly vision; and that is why I cannot pass it by, even in this slender narrative." The trip was one I had been planning with my childhood best friend for almost 14 years—since the days when she dreamed of becoming a river guide and I a cartoonist. This trip was her 70th down the river and my first. The following journal comic was drawn at the end of each day and generally colored before breakfast the following morning." (p. [3]).]

2015 2.26181 *Rim to river.* Portland, Oregon: [no imprint], [20] pp. (Printed by Colorhaus Printing, Portland, Oregon.) [Distributed by buyolympia.com (Buyolympia Corporation).] ["In August of 2015 I teamed up with Arizona River Runners to produce a travelogue comic about one of their motorized, seven-day whitewater rafting trips through the Grand Canyon. From Lees Ferry to the Whitmore helipad, our crew shepherded sixteen passengers through whitewater rapids, up steep side canyons, and into hidden waterfalls. It was utter bliss—even in 115 degrees of desert heat. The journal that follows was drawn freehand during the ten days I was with the crew, then watercolored upon my return to Portland." (p. [2]).]

1878 2.1442 *Un voyage sur le Colorado : par Francis Berton[,] Membre Correspondant de la Société de Géographie de Genève.* San Francisco: [no imprint], 64 pp., map. [Cover title: *Un Voyage sur le Colorado. 1878.*] [Berton (p. [1]) indicated that just 50 copies were printed: "Je me suis donc décidé à en faire publier une cinquantaine d'exemplaires ici . . . ."] [The brief references that are made *in passing* to "Big Cañon" (*i.e.*, Grand Canyon; pp. 22, 33) and "gorge de marbre" (Marble Gorge, or Marble Canyon; p. 22) are from Richard J. Hinton's (1878, ITEM NO. 2.3421) *The Hand-Book to Arizona*, as was first noted by Charles N. Rudkin in his English translation of Berton (Berton, 1953, ITEM NO. 2.1443, wherein only some lithographic plates and the fold-out map in Berton, 1878, were also reproduced). Berton (1878, p. [1]) did acknowledge Hinton for the use of lithographic stones that had been used for the *Hand-Book*. Rudkin further pointed out that many of the scenes that were reproduced by Berton have nothing to do with the region through which Berton had traveled (for example, Berton did not go to the Grand Canyon). The extralimital lithographs that are pertinent to the present bibliography are: "The Grand Cañon of the Colorado" (facing p. 24) and "Grand Cañon of the Colorado—Mouth of Kanab Wash, Looking East" (facing p. 44) (legends both in English, thus, as on the lithographic stones).] [In French.]

1953 2.1443 *A voyage on the Colorado—1878.* (Charles N. Rudkin, translator, ed.) Los Angeles: Glen Dawson, 103 [104] pp. (Early California Travels Series, 18.) ("300 copies have been printed at the Cole-Holmquist Press[,] Los Angeles[.] Binding by Earl Gray[.]") [English translation of Berton (1878, ITEM NO. 2.1442), *Un Voyage sur le Colorado*. Includes (p. 17) a facsimile illustration of the title-page of the very scarce 1878 ed. (and although not so noted by Rudkin, that volume is Berton's presentation copy to the Société de Géographie de Genève, of which Berton was a member). Some lithographic plates and the fold-out map in the 1878 ed. were reproduced from Richard J. Hinton's (1878, ITEM NO. 2.3421) *The Hand-Book to Arizona*, as so acknoweldged by Berton. Rudkin pointed out that many of the scenes reproduced from Hinton by Berton have nothing to do with the region through which Berton had traveled (for example, Berton did not go to the Grand Canyon). The 1953 translated ed. does not reproduce all of the illustrations that appeared in the 1878 ed., and only that portion of Hinton's map that is pertinent to Berton's travels is reproduced. The two lithographs of Grand Canyon are among those *not* included in this 1953 ed. The selected illustrations and portion of map are thus more faithful to the range of

Berton's travels. The translated text, however, is complete and includes the brief references that are made *in passing* to "Big Cañon" and "gorge de marbre".]

The only remarks on northern Arizona are as follows (both from p. 171): "The country to the north has never been explored and is yet in the hands of the Indians, and who can say what treasures are concealed in that wild land, or what blessings for thousands yet to come are in store for them there?"; and ". . . the Colorado which, finding its way from Utah, Wyoming and Colorado Territory, pours its great flood of waters down through Black *canon* and seeks its way to the Pacific. The stories, told of the extent of this *canon* and of the hight [*sic*] of the walls or river banks are such as to stagger credulity. The Colorado river has never been explored by white men along its whole extent, and when it shall be, some curious and interesting facts will be ascertained."]

Avant l’Exposé”. “Publiée sous le Privilege de l’Acad. des Sciences”. “AParis sur le Quay de l’Horloge du Palais” [typographically thus].) Note that the map was issued in advance, in 1752. The map is remarkably imaginary across the northern part of North America, continuing to portray waterways between the Atlantic and Pacific Oceans and with the large “Mer de l’Ouest” between “Californie” and “Fou-sang des Chinois”. The southwestern portion of North America, in the area labeled “Nouveau Méxique”, however, is more recognizable, displaying “Californie” as a peninsula, with “Mer Vermeille” separating it from “Nouveau Méxique” and “Mexique ou Nouvelle Espagne”. “R. Colorado” and “Rio del Coral” (Gila River) converge north of the gulf, between which confluence and the sea is a twin channel.] [In French.]

Burcham, John, and McGivney, Annette

2016 2.25000 We set up shop in the middle of a natural wonder. In the spirit of the legendary Kolb brothers, who made a career out of photographing tourists at Grand Canyon National Park, we installed an octabox and a Canon EOS 5DS along the Bright Angel Trail, at a place called Mile-and-a-Half Resthouse. While our photographer [Burcham] was busy making portraits of hikers, our writer [McGivney] was asking them all kinds of questions. *Arizona Highways*, 92(11) (November): 42-51. However, see p. 8: "In its rambling across the state of Arizona, the road barely avoids the grand canyon [*sic*] and tempts the tourists to make a detour to that most impressive of nature's wonders—that colossal multi-colored gash in the rocks, burst up stern and grim like the wild playground of monster giants. At Needles the trail enters California and following the [Pacific Ocean] shore line, skirts by fields of fruit and flowers and offers an opportunity to drive on the most magnificent system of state highways in the country." There is some grand exploration still to be done upon the line of the Upper Colorado, especially the divides which lie between it and its various influents, the Grand River and the Yaquisilla [Little Colorado River], of which the wild trapper brings home many a marvellous tale of beauty and grandeur. Capt. T. A. 2018 2.27770 11. Dve jednotky znamenajú majstrovské alebo anjelské číslo. Sú prvotným a základným symbolom numerológie. Ľudia pod jedenástkou sú vraj citliví a zraniteľní. Netuším, či je ivan zraniteľný, ale svoju citlivosť a vnímavosť demonštruje vo svojich prácach naplno. Clonové číslo 11 je tiež dobrá voľba. [11. Two units means a master or angel number. They are the primary and basic symbol of numerology. People under eleven are said to be sensitive and vulnerable. I have no idea if Ivan is vulnerable, but he demonstrates his sensitivity and receptivity to the fullest in his works. [Includes remarks on the Grand Canyon, although it does not mention Arizona as its location. However, it does refer to travelers seeing the Colorado "near the Needles, at the foot of Bright Angel Trail, or from the 'Rim Trips' near the El Tovar hotel", again without reference to the location of these places that are outside of Colorado. Also includes historical references of the Colorado River's earlier names. Article concludes with references to supposed ancient Chinese accounts of visits to the "great canon", here noting Arizona and following with the concluding remark, "One of the names given by the Chinese to this geological wonder is quite appropriate—'The Chasm of the Almighty God.'" [Edward Laurence Doheny. See p. 40: "One [little diversion] occurred in 1875, when Doheny was 19 years old. He had joined a party of prospectors on a trip to the Grand Canyon. This was seven years after Major Powell had made his historic trip down the Colorado River. One day while a member of the party was being lowered over a cliff to look for indications of mineral the rope broke and the man fell to his death. There was no way to recover the body because all the ropes in the party had been combined to make up the one that broke. So the survivers [*sic*] went their several ways and forgot the tragedy; that is, all but Doheny. He could do nothing at the time; but he could, and did, return a year later with a companion, and had himself lowered over the cliff and gave the skeleton a decent burial." They made a tour through Dixie, in southwestern Utah; through Pioche, in southeastern Nevada, to Los [*sic*] Vegas . . . ." Also of extralimital note to this bibliography (p. 112): In 1889 "a mining relapse" took Schock back to the upper Colorado River in Utah, where east of the Henry Mountains "he, with three others, prospected something over 100 miles down the river by boat, running seventy rapids in that distance."]

1596 2.1909 *Relacion de la Jornada de Cíbola conpuesta por Pº de Castañeda Nacera. Donde setrata de de aq-llos poblados, y ritos, y costumbres, la qual fue el año de 1540. Historia del Conde Fernando Gonzales impressa.* [sic]. Sevilla [indicated on leaf 157 recto]. Collation: title-leaf, signature leaf [transcriber Bartolome Niño Velázquez], ornamental title-leaf, folios 1-157 (recto and verso). **MANUSCRIPT**, in the original binding of 19th-century owner Henri Ternaux-Compans. [Ornamental title-leaf: *Relación de la Jornada de Cíbola, conpuesta por Pedro de Castañeda de Naçera donde setrata de todos aquellos poblados y ritos, y costumbres, la qual fue el Año De 1540.*] [Of particular note here is the encounter with Grand Canyon, folio 45 recto and verso and folio 46 recto and verso.] [*NOTE*: Regarding the repetitive "de de" on line 3 of the first title-leaf, likely a lapsus, the first "de" follows the usual letter forms as seen elsewhere, but compare the less usual letter forms of the second "de" with those letters in the word "Conde" in line 6. Previous transcribers of this title-leaf have not recorded this and have likewise spelled out "aquellos" although it is written and hyphenated as transcribed above.] [In Spanish.] • [As a manuscript this would not be cited in this bibliography, but it is of seminal importance in the history of the Grand Canyon and the Southwest. This is one of two contemporary accounts by eyewitnesses of the Coronado *entrada* that mention having seen the Grand Canyon. (For the other eyewitness acount, see citations for the anonymously written *Relación del Suceso*—Anonymous, 1896, ITEM NO. 2.85; 2005, ITEM NO. 2.21428.) A few selected leaves have been published in facsimile (see farther below). This manuscript is a copy transcribed by Bartolome Niño Velázquez in Seville, Spain, from a since-missing 1560s original that was written by Castañeda in Culiacán, Nueva España [Mexico]. The 1596 copy was "either for or from the library of Hernando González, Conde de Castilla" (Flint and Flint, 2005, ITEM NO. 2.21426, p. 382). All published references to this manuscript are thus to this 1596 copy, which is today no. 63 in the Rich Collection (formerly of the Lenox Library), Rare Books and Manuscripts Division, New York Public Library, New York, New York. (The NYPL catalogue record indicates in error that the missing original was written in 1540.) The copy had been amongst the papers of Henri Ternaux-Compans of France, who was the first to put this account in print (see Castañeda, 1838, ITEM NO. 2.1910), though with considerable liberties and ignorance in translation. Ternaux-Compans had recognized this document in the manuscript collection of Antonoio de Uguina, in Madrid, who had acquired the collection of Juan Bautista Muñoz (although it is recognized that the details of these earlier provenances is unclear). After the 1835 death of Uguina, Ternaux-Compans purchased the collection, from which around 1844 the Spanish manuscripts were purchased by Massachusetts bibliographer–bookseller Obadiah Rich (through Henry Stevens, an agent working on behalf of Rich and others), and in 1848 Rich's collection was acquired by James Lenox (though the relationship between Rich and Lenox is not clear), whose collection in turn became the Lenox Library. The Lenox Library later became an elemental part of the New York Public Library. The entire volume of the *Relación* copy has been digitized and is accessible as 342 individual images online at http://archives.nypl.org/mss/257063 (last accessed September 22, 2020).] [For a history of the Rich Collection see Brownrigg, Edwin Blake, *Colonial Latin American Manuscripts and Transcripts in the Obadiah Rich Collection: An Inventory and Index* (The New York Public Library, Astor, Lenox and Tilden Foundations; and Readex Books, New York, 1978 (ITEM NO. 1.278).] • [The ornamental title-page and selected pages have been *published in facsimile*, as follows: [¶] The ornamental title-page is illustrated as figure 2.1 in Polzer, Charles W., "The Coronado documents: Their limitations", *in* Flint, Richard, and Flint, Shirley Cushing (eds.), *The Coronado expedition to Tierra Nueva : the 1540 route across the Southwest* (University Press of Colorado, Niwot, Colorado 1997), pp. 36-43). [¶] The ornamental title-page is illustrated on p. 29 in Ahern, Maureen, "'Llevando el norte sobre el ojo isquierdo': Mapping, measuring, and naming in Casteñeda's *Relación de la journada de Cíbola* (1563)", *in* Arias, Santa, and Meléndez, Mariselle (eds.), *Mapping colonial Spanish America : places and commonplaces of identity, culture, and experience*, Associated

University Presses (Cranbury (New Jersey), London, and Mississauga (Ontario), 2002), pp. 24-50. [¶] Two pages that relate to the description of the Grand Canyon are reproduced in facsimile on pp. 112-113 in John Miller Morris (ed.), *Relación de la jornada de Cíbola. Narrative of the Coronado expedition* (R. R. Donnelley and Sons Co., The Lakeside Press, Chicago, The Lakeside Classics Centennial Edition, 2002). However, take note that while the legend for these illustrated pages reads that they are the "section [that] describes discovery of Grand Canyon" they are mistakenly illustrated in reverse order (folio 45 verso, p. 112; folio 45 recto, p. 113), and further, the Grand Canyon account actually concludes on folio 46 recto and verso (not illustrated). (Compare also the more modern transcriptions of the folios in Flint and Flint (2005, ITEM NO. 2.21426), pp. 397-398 [English translation], 451 [transcription of Spanish manuscript].) [¶] The first folio-leaves for parts 1, 2, and 3 of the narrative (as denoted in the manuscript) are reproduced in facsimile in George Parker Winship (1896, ITEM NO. 2.6973, "The Coronado Expedition, 1540-1542", *U.S. Bureau of Ethnology, 14th Annual Report, Part 1*), double-page Plates 33, 34, 35 (plate order within the 14th annual report, but also stamped, respectively, 17, 18, 19 on blank foreleaves to indicate plate order in the Winship paper). The Winship paper comprises the first publication of the *Relación* in Spanish (Castañeda, 1896, ITEM NO. 2.1911), with the first English translation (Castañeda, 1896, ITEM NO. 2.1912). Winship omitted the first three leaves of the manuscript, which were first published by Flint and Flint (2005), and which have been read from the original manuscript for this citation in the present bibliography.]

2021 2.32094 Gender and literature—is gender gendered? Female protagonists in Macbeth (1606), Thelma and Louise (1991) and A Doll's House (1879)—three different genres of literature across centuries. *International Journal of Languages, Literature and Linguistics*, 7(4) (December): 189-192. [In the section, "Endings of the Female Protagonists" (p. 192), contrasts Lady Macbeth and Thelma and Louise: "While Lady Macbeth commits suicide in the sleepwalking scene due to the overwhelm of guilt and remorse, Thelma and Louise are finally caught in suspense in the air in the frozen frame of the final shot. The contrastive boundlessness of the Cliff of Grand Canyon creates an illusion that the two heroines are swallowed by the landscape, foreshadowing their fate would be either immenent deth or imprisonment upon the punishment for the refusal to stay in their fixed gendered binaries." (Chan analyzes the film and the protagonists separately in "Thelma and Louise in *Thelma and Louise*" (p. 191), but does not mention the "Grand Canyon" scene there.)]

It is something the Western tourist *must* see, and so large and important has that "*must*" become that other lines without a little old Grand Canyon nestling near their right-of-way have been hard put to find something just as good for the purchaser of Pacific Coast transportation. True, many of them have developed excellent attractions of their own, notably national parks of one sort and another, but no railroad traffic official will deny that one of the hardest things he has to buck in persuading a prospective passenger away from the Santa Fé and on to his own road is the popularity of the Canyon."]

This part includes a photographs (with no legends) of the Grand Canyon Skywalk at Grand Canyon West and the author aboard a boat on the Colorado River, apparently part of the Grand Canyon West's tours, and the following brief notation (p. 1): "I set the plane for climbing cruise and headed northeast. The plan, level off at 9600', which was above the Grand Canyon National Park no fly zone. Flying over the park you cold see the expanse of the Grand Canyon, pretty amazing. The plateaus were covered in a carpet of green, I assume cedar trees or junipers, the beautiful reds and tans covered by dark green made for a beautiful view."

[21] Ève Curie's biography of her mother, Marie Curie, has been very widely reprinted and translated (the original text is in French; all cited editions are in English translation except where noted otherwise). Although but one brief passage relates to Marie Curie's 1921 visit to Grand Canyon with her daughters, Irène (aged 23) and Ève (16), and of the daughters' horseback ride on the rim and mule ride to the Colorado River, for the sake of proper bibliography as many editions as possible are cited. However, it has been deemed prudent here to cite only the first editions under individual imprints and translations, also omitting editions that are abridged, since these have not been read to determine whether the Grand Canyon visit is included in them.

1926 2.31618 *International cross roads and Marshal Foch in America.* Paris: "Privately Printed by Herbert Clarke", 359 pp. [Ferdinand Foch, Marshal of France. Foch's visit to Grand Canyon was on December 6, 1921 (see pp. 313-314, with three photographs: "A Glimpse Into the Grand Canyon", facing p. 313, which shows Foch and party and a Native American in full headdress at the wall at El Tovar; "D'Olier, Marshal Foch, Mc Nider, Roberts", facing p. 315, posing rimside at a place where there is no wall; and "A Cup of Tea at Hermit's Rest, Grand Canyon", facing p. 317, with Marshal Foch seated by the fireplace on a bearskin-covered log bench with his hat and gloves on the skin and teacup and saucer on the bench). "We could not resist the viewpoint in front of El Tavar [*sic*] where every one was transfixed by the grandeur and beauty of the scene before us. The Marshal most fittingly described it as fantastic and unreal." (p. 312). The party was driven to various viewpoints along the rim. "The Marshal remarked that he had never heard of the Grand Canyon before I had entered it on his list as one of the *necessary* stops, and he feared that when he went away from the spot he would find it had been unreal—merely a dream. [¶] We went on further and while General Desticker, McNider, Roberts, D'Olier, Mackay, de Mierry, l'Hopital and others made the trip down one of the trails toward the 'bottom of the pit,' the rest of us went to the Hermit's Rest for a cup of tea and a quitet chat. A big log fire roared in the immense fire place and though the day had been bright and clear there was a frosty quality in it that caused us to enjoy the cosy room and delicious tea. The 'mule party' returned later on and we all found special vantage points from which to watch the glorious sunset." (p. 313). (The book's author is Lt. Col. Francis Ernest Drake, U.S. Army, Past Commander of Department of France, American Legion, who accompanied Marshal Foch's party. Identities of other people mentioned: Brigadier General Pierre H. Desticker, Aide Major General to Marshal Foch; Commandant de Mierry (French army, aide); Capitain Rene L'Hopital (French army, aide); Hanford McNider, National Commander, American Legion; Alton T. Roberts, Chairman, American Legion; Franklin D'Olier, Vice-Chairman, American Legion.)]

[See p. 220: “As to the Grand Canon, I can do no better than to quote from a letter I wrote a few minutes after my first sight of the wonder: [¶] I shall not attempt to describe it. I had read so much about it and seen all kinds of pictures of it; yet I was not prepared for what we saw. I think it is the most awe-inspiring sight in the world. Its grandeur and mystery make it irresistibly fascinating. Everyone should try to see it; it is well worth any great sacrifice within reason. I am glad I lived to see it, and shall want to come back again. [¶] This and Yellowstone Park are, to me, the greatest wonders in the world. Niagara, and other great falls, as well as great volcanoes, are grand, but explainable, at least to our satisfaction, but the mystery of these two natural wonders will, probably, never be satisfactorily explained. It does not strike you as large in the sense of bigness; in fact, I know of no words that can describe this sensation. You are just dumbfounded and spellbound.” (ENTIRE NOTE)]

[In the chapter, "Nell'Estremo Occidente" (In the Far West) (pp. 403-426), the author mentions Grand Canyon casually (pp. 417, 421). Unfortunately, here he quotes extensively from "un anonimo Inglese che si annuncia socio della Societá reale di letteratura in un opuscolo intitolato: 'Verso casa, attraverso l'America'" (an anonymous Englishman who announces himself as a member of the Royal Society of Literature in a pamphlet entitled: 'Towards Home, Across America'), who only generally mentions the Colorado River and its canyons; and in any case the pamphlet and its author have not been otherwise identified for this bibliography. Fano traveled from San Francisco to Denver via Salt Lake City, hence he did not go to Grand Canyon himself.] [In Italian.]

1940 2.11636 *Life in the Rocky Mountains : a diary of wanderings on the sources of the rivers Missouri, Columbia, and Colorado from February, 1830, to November, 1835, by W. A. Ferris, then in the employ of the American Fur Company, and supplementary writings by Ferris, with a detailed map of the fur country, drawn by Ferris in 1836. Edited, and with a life of Ferris, and a history of explorations and fur trade, by Paul C. Phillips.* Denver: F. A. Rosenstock, Old West Publishing Co., xcv, 365 pp., map. [Preface indicates that diary was first published in *Western Literary Messenger*, July 13, 1842, to May 4, 1844.] [See in Appendix: "Supplementary Articles. Number 1. Chanion of the Colorado", pp. 319-320, which transcribes Ferris (1842, ITEM NO. 2.11635) that generally refers to the canyons below the confluence of the Grand and Green Rivers.] [*NOTE*: The 1836 manuscript map by Ferris, without title, was first published in this volume. The map includes a prominent stretch of the "Rio Colorado" embraced by boxes on either side, labeled, "Great Chanion of the Colorado", which is placed below the confluence of "Green River or Soos Ke de" [*i.e.*, "Seeds-ke-dee"] and "Rio Grand" and extends between "Rio St. Michael" and "Rio Dolores". Despite the map's clear portrayal of the landscape of Upper Basin only, some references point to the obvious labeling that is an early and inferred use of the term "Grand Canyon", although it is not in reference to the canyon of Arizona. Wheat (Volume 2, 1958, pp. 155-157, 241-242), provides significant remarks pertaining to this map.]

The Colorado is drawn most generally, with an erratically sinuous line throughout. The Little Colorado River and Virgin River do not appear at all.] [Also map "Deuxieme Edition" noted; with same date.] [*NOTE*: Although there are overall differences on the map, the Colorado is drawn in a fashion remarkably similar to that shown on the map by E. "Rio Colorado" is shown between "Mare Vermiglio o Golfo di California" and headwaters that are in fact the Green River, although labeled "Rio Colorado"; the Grand River is not labeled. The Colorado is drawn most generally, with an erratically sinuous line throughout. The Little Colorado River and Virgin River do not appear at all.
